What's New in the Software

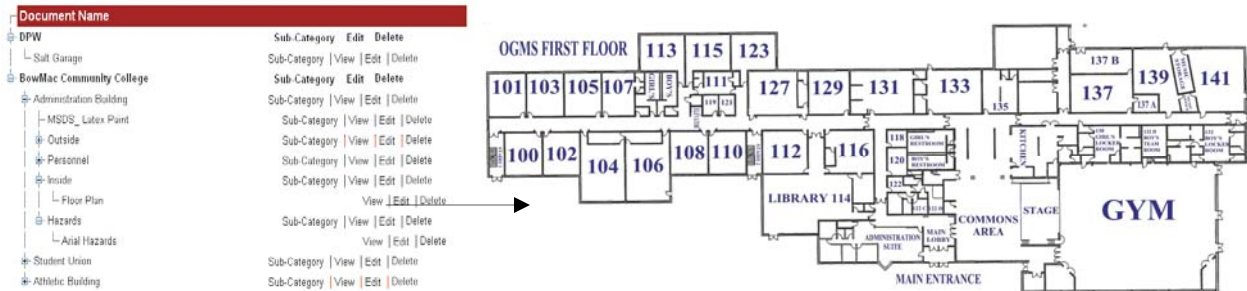

Emergency "CHAT ROOM"

- * LIVE detailed communication with team
- * Color coded per NIMS position
- * User-definable permissions and filters
- * Easy communication from multiple sites
- * No need to tie up radios or phone lines
- * New shift personnel can query previous info
- * All data is archived and stored for review

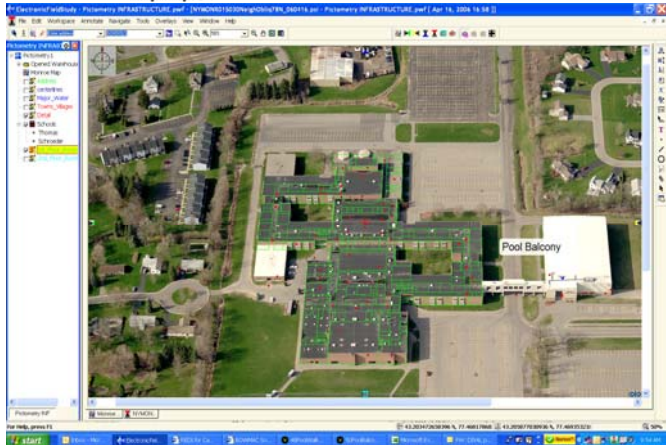

Responder Documents

First Responders can be assigned Read-Only password-protected access to your REDI™ Software which allows easy access to your Facility Information from a web-enabled Command Vehicle or Post. You can access Floor Plans, MSDS Sheets, Photos, Alarm and other critical data 24 / 7 remotely without the large bulky binder.

see everywhere measure anything plan everything
